

Round Media

Open Style Tap

Description

Open-style taps provide a way for drop cables to be connected to the trunk line using open-style wiring connections. Three sets of 5-position color coded wiring chambers accommodate all wires (for entering

trunk cable, exiting trunk cable, and drop cable). The open-style top can be mounted on a DIN rail. Jack screws on open-style taps and connectors provide additional physical support.

5-Pin Linear Plug

10-Pin Linear Plug

5-Pin Linear Plug

Description

Open-style connectors come in two primary varieties—5 position (5-pin linear plug) and 10 position (10-pin linear plug). Ten position connectors

provide easier daisy-chaining because there is an independent wire chamber for each wire (entering and exiting cable).
