

Repair Services on non-Rockwell Automation Products

Made by Anyone. Repaired by Us.

A Single Source for Repairs

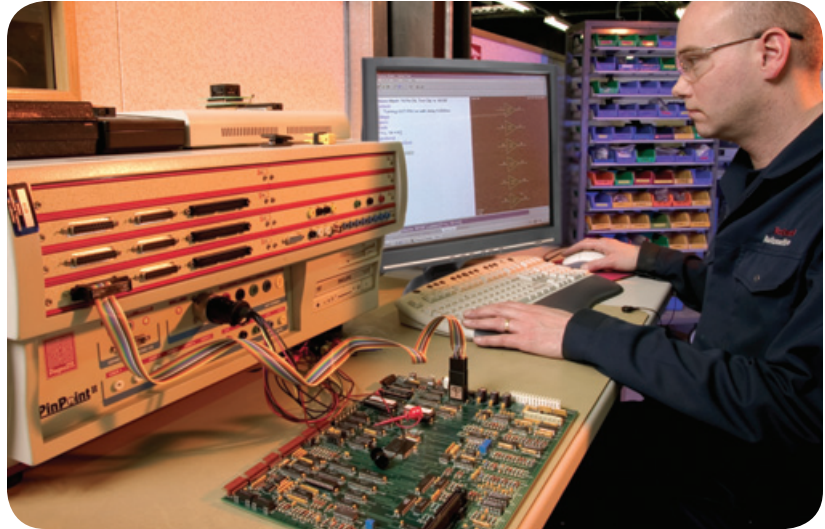

Meet your repair needs quickly and conveniently with repair services from Rockwell Automation. Quality has been integrated into every step of our repair process, whether the item is repaired at our Rockwell Automation or Lektronix repair facilities, or through our extensive network of strategic suppliers.

Benefits

- Increase Mean Time Between Failure (MTBF) through use of OEM specified components (when available)
- Reduce procurement administration through vendor consolidation
- Extend equipment life by repairing obsolete or hard to find replacement products
- Extensive global repair center, distributor and support networks

Features

- Single source capability
- ISO 9001 and ISO 14001 certified
- One year warranty on complete unit, not just repaired components
- Automated testing
- After hours support
- Local representation

We provide comprehensive repair services for all of your electrical, electronic, mechanical and servo products – over 200,000 items from 7,000 plus manufacturers.

Quality Repairs, Extensive Capabilities

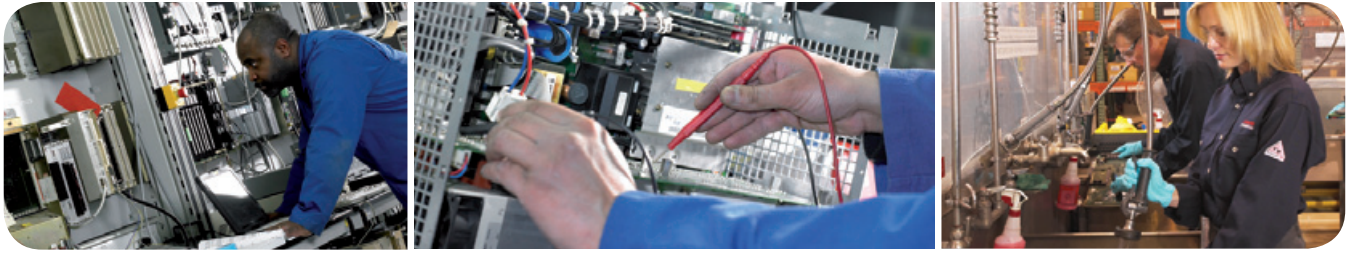

Keeping your operation up and running in a cost-effective and efficient manner is our primary objective. Our repair technicians will work quickly to repair your automation equipment, using replacement parts that meet – or even exceed – the original design specifications.

Every unit follows a stringent process to ensure the highest quality repair is performed. Our efficient process flow minimizes handling time and our experienced professionals will ensure your equipment is returned to you as quickly as possible, so you can get your operation back up and running.

Actions Taken To Diagnose Problems:

- ▶ Your equipment is thoroughly cleaned to remove all contamination
- ▶ Diagnostic tests are used to locate any defective components
- ▶ Circuit analysis isolates marginal components
- ▶ Defective as well as marginal components are replaced to support long-term performance of the unit
- ▶ State-of-the-art equipment verifies total circuit board quality
- ▶ Circuit boards are coded and tagged
- ▶ Handling, packaging and shipping are performed in a static-free environment

LISTEN.
THINK.
SOLVE.

Repaired equipment is protected by a 12-month warranty covering the entire unit, not just the repaired components.

Examples of manufacturers we support

AC/DC Drives

ABB
Baldor
Boston Gear
Control Techniques
Cutler Hammer
Danfoss
Emerson
Eurotherm
Gefran
General Electric
Indramat
Klockner-Moeller
Lenze
SEW-Eurodrive
Siemens
Toshiba
U.S. Motors
Vacon
Westinghouse

Programmable Logic Controllers

AEG
Cutler Hammer
General Electric
GE Fanuc
Giddings & Lewis
Honeywell
Klockner-Moeller
Mitsubishi
Modicon
Omron
Schneider
Siemens
Telemecanique
Texas Instruments
Toshiba
Westinghouse
Yaskawa

Servo Motors and Drives

Advanced Motion
Aerotech
Atlas
Baldor
Beckoff
Bosch
Baumuller
Compumotor
Control Techniques
Emerson
Fanuc
General Electric
Indramat
Industrial Drives
Kollmorgen
Lenze
Mitsubishi
Pacific Scientific
Siemens
Westamp

Robots and Controllers

ABB
Adept
Dengensha ADC
Fanuc
Kawasaki
Kuka
Motoman
Nachi
Rimrock
Robotron
Square D
Staubli
Trallfa

Distributed Control Systems

Bailey Robotics
Foxboro
Honeywell
... and many more.
