

FactoryTalk® View ME Software

FactoryTalk® View ME and PanelView™ Plus Maintenance and Troubleshooting Course Description

COURSE AGENDA

Day 1

- Configuring a PanelView Plus Terminal
- Configuring RSLinx Enterprise Communications
- Creating and Modifying Tags
- Adding and Configuring Graphic Displays
- Creating and Manipulating Graphic Objects

Day 2

- Creating and Configuring Interactive Controls
- Creating and Configuring Alarms
- Creating and Managing FactoryTalk View ME Runtime Files
- Troubleshooting Job Aid

COURSE NUMBER: CCV209

Course Purpose

This course is a skill-building course that provides you with the skills necessary to maintain and troubleshoot a FactoryTalk® View Machine Edition (ME) applications that run on the next-generation PanelView™ Plus terminals.

This course provides opportunities to work with both the software and hardware. During class, you will gain the hands-on skills required to prepare a PanelView Plus terminal for operation. You will also work with FactoryTalk View ME software and RSLinx® Enterprise software and will practice downloading FactoryTalk View ME applications to a PanelView Plus terminal.

Who Should Attend

Individuals who need to maintain FactoryTalk ME applications for use on a PanelView Plus terminal should attend this course.

Prerequisites

To successfully complete this course, experience operating a personal computer within a Microsoft® Windows 2000® or Windows XP® environment is required.

Student Materials

The following course structure is generally used to facilitate your ability to meet the course objectives:

- *Student Manual*, which contains the key concepts, definitions, and examples presented in the course and includes the hands-on exercises.
- The *FactoryTalk View ME and PanelView Plus Procedures Guide*, which provides step-by-step procedures used in completing tasks covered in this course.

Hands-On Practice

Before you begin the course, the instructor will show you two videos on how to correctly install the FactoryTalk View ME software and how to activate the software using the FactoryTalk Activation tool.

Throughout this course, you will have the opportunity to practice the skills you have learned through a variety of hands-on exercises. These exercises focus on the skills introduced in each lesson.

Next Learning Level

The skills covered in this course can help you prepare for other visualization training courses. One such course is *FactoryTalk View ME Programming (CCV204)*, which focuses on creating FactoryTalk View ME applications.

Course Length

This is a two-day course.

Course Number

The course number is CCV209.
