

Industrial Computers with the Windows Embedded 8.1 Industry Professional Operating System

Rockwell Automation industrial computers that are shipped with the Windows Embedded 8.1 Industry Professional operating system installed and configured do not contain a back-up factory image of the operating system.

To create a back-up image of the operating system, refer to the following publications.

Resource	Description
Non-display Industrial Computers User Manual, publication 6177R-UM002	Provides an overview of the computer and how to install, set up, operate, and troubleshoot the non-display computer.
Integrated Display Industrial Computers User Manual, publication 6181P-UM003	Provides an overview of the computer and how to install, set up, operate, and troubleshoot the integrated display computer.

You can view or download publications at <http://www.rockwellautomation.com/literature/>.
