## Determining Software Revision Level

This section describes the procedures to determine the software revision of your DriveExplorer software package. **You must have v6.01 already installed on your PC in order to update to v6.02.**

In DriveExplorer, select **Help >> About DriveExplorer** to display the About DriveExplorer window.

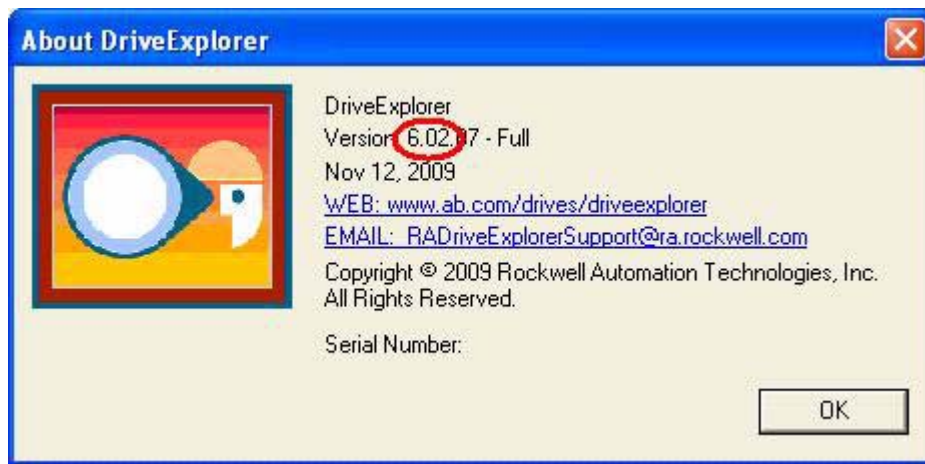

## Installing the Update

This section describes the procedure for installing the software update. **You must have v6.01 already installed on your PC in order to update to v6.02.**

1. Install the necessary v6.02 patch over v6.01 on your PC.
2. Open DriveExplorer.
3. Verify the software revision (see section below).

## Verify the Software Revision

In DriveExplorer, select **Help >> About DriveExplorer** to display the About DriveExplorer Software window.

## Enhancements

This section describes the enhancements provided in this revision of software:

### PowerFlex 753 Support

DriveExplorer v6.02 supports the new PowerFlex 753 drive, which uses the new Rev. 4 of the DeviceLogix library.

DriveExplorer v6.01 supported the launch of the PowerFlex 755 drive which contained the Rev. 3 DeviceLogix library. The PowerFlex 755 drive will be updated to the Rev. 4 DeviceLogix library for its next major release.

### **Wizards v2.4 Support**

Includes the new PowerFlex 755 Speed Profiling Wizard and PowerFlex 753 Startup Wizard.

Wizards are available as separate downloads (<http://www.ab.com/support/abdrives/webupdate/>) but is also included in this release for customer convenience.

### **Serial-to-Ethernet Routing on PowerFlex 755 Drives**

Added support to connect to the DPI port on the PowerFlex 755 drive with a 1203-USB or 1203-SSS (Series B) and route out over the PowerFlex 755 drive's Ethernet port to access other supported Allen-Bradley drives.

### **PowerFlex 755 Drives Help**

Added Help for PowerFlex 755 drives.

### **PowerFlex 750-Series Modules Fault and Alarm Help**

Added Fault and Alarm Help for PowerFlex 750-Series modules.

## **Corrected Anomalies**

There are no anomalies corrected in this software revision.

## **Restrictions**

The following restrictions apply to this revision of software:

### **DriveExplorer v6.01**

DriveExplorer v6.01 must already be installed on your PC in order for the v6.02 patch to install. If v6.01 is not already on the PC, an error message will occur stating that v6.01 was not found.

## Rockwell Automation Support

Rockwell Automation provides technical information on the web to assist you in using our products. At <http://support.rockwellautomation.com>, you can find technical manuals, a knowledge base of Frequently Asked Questions (FAQs), technical and application notes, sample code and links to software service packs, and a MySupport feature that you can customize to make the best use of these tools.

Rockwell Automation also provides complimentary phone support for drives, communication adapters, and peripherals. If you experience a problem with the software, please review the information in the online Help. For further help in getting your software operational, contact a Customer Support representative:

|                       |  |
|-----------------------|--|
| United States         | 1.262.512.8176<br>Monday – Friday, 7am – 6pm CST   |
| Outside United States | Please contact your local Rockwell Automation representative for any technical support issues. |

For an additional level of technical phone support for installation, configuration and troubleshooting, we offer TechConnect Support programs. For more information, contact your local distributor or Rockwell Automation representative, or visit <http://support.rockwellautomation.com>

## New Product Satisfaction Return

Rockwell tests all of our products to ensure that they are fully operational when shipped from the manufacturing facility. However, if your product is not functioning and needs to be returned:

|                       |   |
|-----------------------|---|
| United States         | Contact your distributor. You must provide a Customer Support case number (see phone number above to obtain one) to your distributor in order to complete the return process. |
| Outside United States | Please contact your local Rockwell Automation representative for return procedure.  |
