Bulletin 800FC Assembled Pendant Stations

Bulletin 800F - 22.5 mm Push Buttons

Overview

Rockwell Automation is pleased to announce the release of the Allen-Bradley Bulletin 800FC ProposalWorks Bill Of Material (BOM) generator, and 40 of our most popular Pendant Stations as preassembled catalog numbers. The BOM generated by ProposalWorks allows for easy component selection and pendant assembly at either the Distributor or customer location. The 800FC Pendant Stations incorporate the use of standard Bulletin 800F Push Button products (Push Buttons/Selector Switches/Emergency Stop/etc) for Distributor support with existing inventory. Not only does this allow for extremely short delivery times, but the 800F products are quick and easy to install.

Advantages

- Ease of ordering and assembly
- Minimize inventory and delivery
- Maximize configuration flexibility
- Customizable to specific needs
- Designed to meet worldwide standards
- Rugged with excellent reliability
