

ScanESC™ Lockout/Tagout Software

Helping You Achieve the Full Potential of Your Lockout/Tagout Program

Features and Benefits

ScanESC provides you the capability of digitizing your entire lockout/tagout (LOTO) program, confirming that all information available to employees is up to date and readily available through an intuitive, user-friendly interface. As a cloud-enhanced system, ScanESC allows you to collect data and track activities even if offline, synchronizing all the necessary information once connectivity is restored.

We Make Lockout/Tagout Easy

Simplify your life with our fully electronic LOTO Program.

- Access your LOTO procedures with any iOS, Android or Windows mobile devices
- Access your LOTO procedures anywhere, anytime
- Access and utilize Standard Operation Procedures (SOPs)
- Access supporting documentation and policies for your machines and facilities
- Electronically audit procedures and employees
- Track LOTO usage and downtime
- Assign audits to individuals
- Manage and access all LOTO audit data through a standard web browser

Powered by Microsoft Azure®

ScanESC is a cloud-enhanced system with a user-friendly interface accessed through a mobile app and web portal.

A lockout/tagout program is not only a way of achieving safety compliance, it is also a powerful tool to reduce your overall risk and maximize the utilization of your assets to improve productivity. ScanESC provides you with the tools and resources to modernize and digitize your entire LOTO program with enough adaptability to be useful to large corporations, small businesses and anyone in between.

You can expect savings over your current audit and lockout processes, and you will have the ability to make real-time decisions to proactively and simultaneously achieve employee safety and compliance with company policy and government regulations.

With ScanESC – a modern software solution to help manage your LOTO program – your company will benefit from real-time synchronizing of data between your authorized employees and a cloud-based secure portal.

THINK.
SOLVE.

ScanESC Main Features

Mobile App

- Audit procedures and authorized employees
- Access LOTO procedures and supporting documents
- Locate related documentation by using QR code tags installed on the machines
- Execute Standard Operating Procedures (SOPs)

Web Portal

- Access dashboards with statistics for LOTO status, duration and total downtime
- Manage users, locations and procedures
- Access historical data regarding equipment status
- Manage your procedure documents to enable real-time updates to your procedures

How To Order

The ScanESC system is a subscription-based offering. Choose from the following options:

- **Small site:** Annual facility fee up to 200 procedures (LOTO + SOP)
- **Medium site:** Annual facility fee for 201 to 999 procedures (LOTO + SOP)
- **Large site:** Annual facility fee for unlimited procedures (LOTO + SOP)

You can also choose two optional features: A one-time site set-up fee to get our team at your site to execute the configuration and data loading on your behalf or one iPad with the ScanESC mobile app loaded and configured.
