

RTrainer CD-ROM Courses

Computer-Based Training

Benefits

- Eliminate travel costs
- Lower overall training costs
- Better knowledge retention
- Improved performance
- On-going access to instruction

Training is offered for the following products:

- ControlLogix® Fundamentals
- RSLogix™ 5, RSLogix 500®, and RSLogix 5000®
- SLC™ 500
- RSLinx®
- Hydraulics Fundamentals
- ControlLogix
- FactoryTalk® View Machine Edition
- EtherNet/IP

Minimum System Requirements RTrainer® on a PC:

- Pentium III processor (or better)
- Windows 98SE, NT4, 2000, XP, 7 or Vista operating system
- 64 MB of RAM (or more)
- 200 MB of available hard drive space
- 800 x 600 video resolution
- CD-ROM drive
- Mouse or other pointing device
- Sound card with speakers or headphone

Note:

RTrainer is not operable on a MAC system

Saving Time and Money with Computer-Based Training

Self-paced, self-directed, computer-based training courses will help employees acquire and retain new skills at an accelerated rate, giving them more time on the plant floor and less time in a classroom.

Two purchasing options are available with RTrainer computer-based training:

Single-User Option: RTrainer offers a single-user license and a single software activation. This computer-based training product is designed so that one person can use the program on one computer at one time. With this option, the RTrainer software can be installed and activated on only one computer and not on a network.

Multi-User Option: Referred to as RTrainer Enterprise Edition, this version can be installed on a network and shared concurrently with multiple users. RTrainer Enterprise Edition ships with five user licenses and software activation that permits five users to concurrently access and use the RTrainer software at any given time. This computer-based training product is meant to be installed and activated on a network server and it is designed to provide greater flexibility with managing multiple users over a network. RTrainer Enterprise Edition is ideal for companies with a large number of people to train.
