Training Workstation

ControlLogix Workstation – No Motion and No Controller (7-slot chassis)

Catalog Number
ABT-TDCLX2NP-A

Workstation Functionality
The ControlLogix® workstation offers a means to simulate the same control schemes running throughout your plant. Whether you want to extend your staff's engineering skills or develop an effective program to get employees up-to-speed, the ControlLogix workstation will help you get the most from your investment.

Training Purpose
This workstation is intended for customers who want to practice those job tasks that are not frequently performed on the plant floor. The workstation is designed to be used as an aid for strengthening and maintaining skill sets.
