Course Number
CCV207

Course Purpose
Upon completion of this course, you should be able to organize and develop FactoryTalk® View Site Edition (SE) applications.

This course provides opportunities for you to work with local FactoryTalk View SE applications.

During class, you will have the opportunity to practice the skills used to create an application and build graphic displays.

You will learn how to configure alarms and security, trend data, and test your application using FactoryTalk View SE Client. You will also work with RSLinx® Enterprise communications software and the FactoryTalk Diagnostics system.

After practicing these skills in a local application, you will receive a high-level overview of how a network application is created.
Who Should Attend
Individuals who need to develop FactoryTalk View SE local (stand-alone) or network distributed applications should attend this course.

Prerequisites
To successfully complete this course, experience operating a personal computer within a Microsoft Windows 7 environment is recommended.

Technology Requirements
All technology is provided for student use in the classroom by Rockwell Automation. It is not necessary for students to bring any technology with them when attending this course.

Student Materials
To enhance and facilitate the students’ learning experience, the following materials are provided as part of the course package:

- **Student Manual:**
  - Includes the key concepts, definitions, examples, and activities
- **Lab Book:**
  - Provides learning activities and hands-on practice
- **FactoryTalk View SE Procedures Guide:**
  - Provides all the steps required to complete common FactoryTalk View SE application development tasks
  - Allows you to immediately apply what is learned in the course to your own job

Hands-On Practice
Throughout the course, you will have the opportunity to practice the skills you have learned through a variety of hands-on exercises. These exercises focus on the skills introduced in each lesson.

Next Learning Level
After mastering the skills covered in this course, you will have the knowledge and skills necessary to learn more specialized tasks. In particular, this course is a prerequisite for the FactoryTalk View SE Architecture course (Course Number CCV205-LD).

Course Length
This is a four-and-a-half day course.

IACET CEUs
Rockwell Automation is authorized by IACET to offer 3.2 CEUs for this program.

To Register
To register for this or any other Rockwell Automation training course, contact your local authorized Allen-Bradley® Distributor or your local Sales/Support office for a complete listing of courses, descriptions, prices, and schedules.
