Training Workstation
CompactLogix Integrated Architecture Workstation

Catalog Number
ABT-TDIALITE-A

Workstation Functionality
You can use this workstation to develop and build a solid foundation of CompactLogix and automation system knowledge. With this workstation, you can become familiar with a variety of automation hardware and software. This workstation allows you to establish communications and program a basic RSLogix 5000® project. You can also configure drives and visualization applications. EtherNet/IP is also included for distributed control.

Training Purpose
This workstation is intended for customers who want to practice those job tasks that are not frequently performed on the plant floor. The workstation is designed to be used as an aid for strengthening and maintaining skill sets.

MAJOR COMPONENTS
- 0.5-HP PowerFlex® 40 AC drive

OPERATOR INTERFACE PANEL

- CompactLogix System Fundamentals & Troubleshooting Lab Book (ABT-CCP298TLB)

To be respectful of the environment, Rockwell Automation is transitioning some of its training courses to a paperless format. Students are asked to complete downloads and bring personal devices to these classes. A full list of digital/paperless courses is currently available through your local distributor.
