# **Migration Solutions**

# Stratix 8000/8300 Ethernet switch to the Stratix 5700, Stratix 5400 or Stratix 5800

### Why Upgrade or Migrate

While the Allen-Bradley Stratix<sup>®</sup> 8000/8300 Ethernet Switch has been a valuable part of our portfolio, this product will no longer be available for sale after November 30, 2020\*. Now is the time to migrate.

If a fixed platform up to 20 ports meets your application needs, the Stratix 5700 and/or the Stratix 5400 are good choices. If a modular platform up to 26 ports is required, then the Stratix 5800 is the best choice.

As the latest Stratix offering, the Stratix 5700, Stratix 5400 and Stratix 5800 offer many new features to improve network design and performance.

### **Features and Benefits**

Stratix 5700 Managed Switch

- Device Level Ring (DLR)
- Network Address Translation (NAT)
- AAA Support

Stratix 5400 Managed Switch

- DLR
- NAT
- AAA Support
- Flexible Netflow

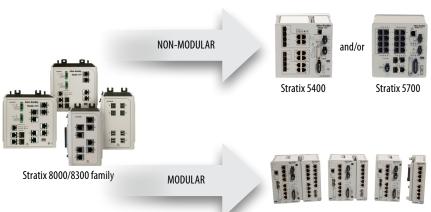

Stratix 5800 Managed Switch

- NAT
- AAA support
- Flexible NetFlow

\* Discontinued date may be subject to change.

**Note:** This migration guide only lists all the replacement catalog numbers that were available for the Stratix 8000/8300 Modular Managed Ethernet Switch.

For information on additional Stratix 5700 Industrial Managed Ethernet Switch, Stratix 5400 Industrial Ethernet Switch or Stratix 5800 High Performance Managed Switch configurations refer to publications ENET-PP005F-EN-E and ENET-PP012B-EN-P.

Stratix 5800 family

# Identify, Mitigate and Help Eliminate the Risk of Automation Obsolescence

In today's economy, it is necessary to have migration solutions that help you achieve increased productivity and lessen your risk of maintaining your legacy equipment. You need to work with a supplier that has the product, service and industry knowledge to partner with on an upgrade strategy that will help maximize your competitive advantage.

Rockwell Automation and its partners will work with you to outline a plan that fits your application needs and long-term goals. We can help you migrate all at once or in phases, at the pace that is comfortable for you and fits your budget.

With your goals in mind, Rockwell Automation has developed a migration strategy that will allow you to quickly and easily migrate from the Stratix 8000/8300 Ethernet Switch to the Stratix 5700, Stratix 5400 or Stratix 5800.

### **Product Lifecycle**

Use the <u>Product Lifecycle Status</u> search tool on the web to find specific lifecycle information by catalog number.

#### ACTIVE ACTIVE MATURE END OF LIFE DISCONTINUED

- ACTIVE: Most current offering within a product category.
- ACTIVE MATURE: Product is fully supported, but a newer product or family exists. Gain value by migrating.
- END OF LIFE: Discontinued date announced actively execute migrations and last time buys. Product generally orderable until the discontinued date.<sup>1</sup>
- DISCONTINUED: New product no longer manufactured or procured.<sup>2</sup> Repair/exchange services may be available.
  - <sup>1</sup> Outages on specific items may occur prior to the Discontinued date. <sup>2</sup> Limited stock may be available in run-out mode, regionally.
