# Build a skilled and engaged workforce

Industrial automation training teaches advanced technology skills

SERVICE	OUTCOME
<p><b>Learning+ training subscription</b></p> <p>Our Learning+ training subscriptions combine the self-paced experience of e-learning with in-class collaboration with instructors, labs, and additional training content – all in a virtual environment. This provides the flexibility and convenience of learning when and where you need it most. Learning+ training courses can be taken on any tablet or PC using Chrome, Safari, IE, Edge, or Firefox, and all content is narrated, and has a viewable transcript.</p>	<p>Flexible training options allow workers to learn by the method that works best for them, making it easier to access training anytime, anywhere.</p>
<p><b>Instructor-led training</b></p> <p>In-person hands-on learning is an effective way to increase job-related skills. We offer a wide range of courses to help get employees trained on Rockwell Automation technologies. Courses are designed to align with specific job functions and focus on relevant job tasks. Courses are conducted at Rockwell Automation and partner locations or can be held for private audiences at customer sites if sending your employees to off-site training is disruptive to production.</p>	<p>Building a well-trained workforce helps reduce unplanned downtime and improve productivity.</p>
<p><b>Global workforce solutions</b></p> <p>Consultation-based offerings are focused on helping you assess, train, and measure your industrial workforce. A Global Workforce Solutions engagement provides quality content to help you design and implement a sustainable, flexible solution that promotes retained knowledge, while continuously measuring the value through ongoing alignment and analysis. These solutions can include self-paced, virtual, and instructor-led training.</p>	<p>Take your workforce development strategy to the next level with a managed services approach to solving your skills gaps.</p>
