

Scalable Control Systems

A Primed Market For Change*

Compared to just 5 years ago, manufacturing looks unrecognizable. The rapid digital transformation seen in manufacturing has generated practices that are more efficient, less wasteful, and increasingly connected. The adoption of these practices continues to accelerate.

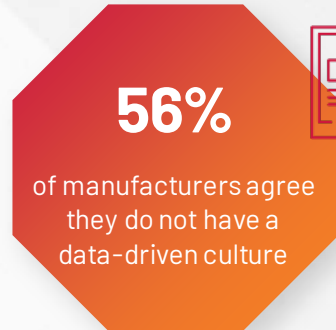

58%

of organizations have a business need that requires digital transformation

25%

are using data to deliver actionable insights

of manufacturing executives intend to increase investments in digital initiatives, including more Industry 4.0 technologies

Customers Have A Business To Run, We Can Make It Better

Creation of a Scalable Solution

Optimize your Operations with Scalable Control Systems

Transform and adapt with simplified solutions

- Simplify your processes
- Connect your entire plant
- Unlock the potential of existing resources
- Achieve full workforce capabilities

Improved Conformance Scheduling
Mining Company Case Study | March 2021

Attain desired business outcomes faster

- Focus on business challenge first
- Be strongly positioned in a rapidly evolving market
- Focus on speed and efficiency without sacrificing quality

Smarter, More Efficient Packaging
Food & Beverage Case Study | September 2021

Stay continuously supported

- Access industry-leading support
- Make use of best-in-class services
- Harness unmatched people network, products, and strategic partnerships

Decreased Risk and Increased Safety
Commercial Construction Case Study | July 2021

Streamline production and maintain compliance

- Maximize production ROI
- Work with an industry leader in global cybersecurity
- Reduce safety, compliance, and security risks

Optimized Processes
Oil & Gas Case Study | August 2021

Discover the benefits of a solution-based approach and develop strategies to increase speed to market
